**World's No.1**  
MANUFACTURER OF WATER HEATERS

## SAY HELLO TO A. O. SMITH.

Founded in 1874 by Charles Jeremiah Smith, the A. O. Smith Corporation began as an engineering company in Milwaukee, Wisconsin. Today, we are the global leaders in making water heaters. This drives our pursuit for excellence when it comes to water purifiers as well. For the past 147 years, our singular purpose has been to create stellar products that deliver the best performance with the best technology. And to this day, we live strongly by that belief.

## OVER A CENTURY OF INNOVATION.

A. O. Smith enjoys a rich history of achievements. A glimpse at our 147-year history reveals numerous engineering and technical achievements.

**1874**

Started operations

**1936-1954**

Patented the glass line technology and introduced the first glass-lined commercial water heater

**2008**

Started operations in India

**2015**

Entry in Water Purification-Pioneers in introducing the Hot Water feature

**1889-1906**

Foray's into the bicycle industry and over the years became North America's largest automobile frame manufacturer

**1995**

Joint venture in China

**2010**

Factory set up in Harohalli, Bengaluru 2010 - Water Heater Manufacturing begins

**2019-2020**

Launched a new range of residential Water Heaters in India

# The Blue Diamond® Story.

A. O. Smith was credited with the invention of the glass-lined water heater tanks in 1936. After this, the next breakthrough was the Blue Diamond® technology in 2004. In this technology, a specially formulated glass frit is bonded to the steel through a complex process that is carried out at over 800°C. The Blue Diamond® Glass-Lining technology reduces scaling accumulation on the tank caused by minerals, corrosion due to hard water and leakage of heat into the atmosphere. It also enhances the strength and durability of the tank.

All A. O. Smith water heaters come with Blue Diamond® Glass-Lining technology, replacing the earlier stainless steel water heaters that were prone to rusting, corrosion and scaling due to the contact between hot water and steel.

This **Blue Diamond® technology** provides twice the corrosion resistance compared to industry standards and increases the life span of the tank.

# Setting Benchmarks.

HeatBot®

## UPGRADE TO THE ART OF SMART BATHING

Redefine your bathing experience with the new Heatbot that rejuvenates and relaxes your senses. Elevate your bath and bathroom with this pure art, backed by **intelligent design and functionality.**

HeatBot®  
15/25 (L)

## FUTURE-READY

-  Easy Operation with Wireless Remote
-  Hot Water Ready at anytime with Smart Timer Mode
-  Track your Energy Use with Energy Meter
-  Sleek & Modern Masterpiece to Elevate your Bathroom

## WORRY-FREE

-  Blue Diamond® Glass-Lined Tank for 2X corrosion resistance.
-  Long-lasting Anode Rod with 2X lifespan even in hard water conditions.

-  7-year warranty on tank. 2+2 year warranty on Glass Coated Heating Element.
-  Double Protection with Thermal Cut-Out and Multi-function Safety Valve.

## ECO-FRIENDLY

-  BEE 5-star rated with Advanced PUF Technology for Power Savings. Perfect if you want to go green.

## EASY-TO-USE

-  Convenient Display & Intuitive Controls

# STYLISH OUTSIDE. INNOVATION AND TECHNOLOGY INSIDE.

Our water heaters aren't just impressive on the outside. They're equally world-class on the inside. That's why you get a 7-year warranty\* on the tank, a 4-year extended warranty\* on the heating element and a 2-year comprehensive product warranty\* that promises safety and longevity.

## Ti Steel Tanks

A. O. Smith water heaters now come with a specially designed Titanium steel tank that ensures sturdy construction, longer life and superior quality that is unmatched. The Titanium steel combined with our patented Blue Diamond® coating is the most technologically advanced combination & gives A. O. Smith water heaters resistance to corrosion even in hard waters.

## Advanced PUF Technology

The advanced PUF injection ensures uniform and high density foam distribution. Complete coverage of the PUF in between the tank & outer jacket greatly reduces the heat loss. This ensures maximum energy efficiency and power savings.

## Smart Modes

Smart Modes enable you to customise your hot water requirements as you like it.

## Fold Back Heating Element

Fits the shape of the tank, ensuring uniform heating and continuous and maximum availability of hot water.

## Long-Lasting Anode Rod

A customised alloy that works even in hard water conditions to protect the tank and has 2X lifespan as compared to a magnesium alloy commonly used in most water heaters.

## Thermostat

Helps in setting the temperature of your water for a relaxing bath.

## Thermal Cut-Out for Safety

If the water temperature exceeds the highest preset limit then this automatically cuts off the power supply to the water heater for your family's safety.

## Glass-Coated Heating Element\*

Incoloy heating element protected by glass coating to prevent scale formation and extend the life of heating element.

## Wire Harness and Power Cord

Complying to the stringent standards of UL 1015 for wires, IS 694 for cables and IS 1293 for plug.

\*Features may vary as per model

## HOW TO CHOOSE YOUR WATER HEATER.

Capacity is the primary criteria which depends on the kind of usage.

**Kitchen**

Suggested Capacity in Litres 3 / 6

**Bucket**

Suggested Capacity in Litres 10 / 15

**Normal shower**

Suggested Capacity in Litres 25

**Body shower panel**

Suggested Capacity in Litres 35 / 50

**Rain shower**

Suggested Capacity in Litres 50 / 70

**Bath tub**

Suggested Capacity in Litres 100 / 200

**Jacuzzi**

Suggested Capacity in Litres Above 200

# DISCLAIMER

1. Product images / color shown may vary from actual model. Design, feature and specifications mentioned are subject to change without notice. Applicable for all models.
2. Anode: A. O. Smith customized anode has a minimum of 2X more life when compared to a regular magnesium anode of similar dimensions, when tested under standard lab test conditions.
3. Blue diamond: A. O. Smith Smith Blue Diamond® glass lining has a minimum of 2X more durability when compared to a regular glass coating, when exposed to hot water in standard lab test conditions.

# WARRANTY

## Product Warranty

Your A. O. Smith Water Heater is warranted against defects arising from faulty design, workmanship and materials for a period of 24 months from the date of the invoice, subject to the following conditions:

1. The customer will notify the Company promptly about defects noticed and give the Company or its Authorised Service Provider adequate opportunity to inspect, test and remedy them, for which the customer will deposit the goods, if necessary, with the Company's Office/Authorised Service Provider along with the original invoice.
2. Special warranty from the date of purchase is only applicable for the below mentioned components:

Tank	7 Years
Glass-Coated Heating Element	4 Years
Product Warranty	2 Years

Applicable for XPRESS, FINESSE Models.

Tank	7 Years
Glass-Coated Heating Element	3 Years
Product Warranty	2 Years

Applicable for URBANE Model.

Tank	7 Years
Glass-Coated Heating Element	2 + 2 Years
Product Warranty	2 Years

Applicable for, SZS, SZS-DG, ELEGANCE-SLIM & ELEGANCE, HSE-HAS-X, Models.

Tank	5 Years
Glass-Coated Heating Element	2 + 1 Years* 2 Years#
Product Warranty	2 Years

(a) Applicable for MINIBOT\*, (b) Applicable 2 Years# Warranty on Heating Element on FASTON Models.

\*Extended Warranty: Registration of Extended Warranty is valid if customer registers the product within 60 days of purchase. For more details log on to [www.aosmithindia.com](http://www.aosmithindia.com)

## Series

In addition to water heaters, we've also brought international standard water purifiers to India. Our range of water purifiers offer everything you've thought of, and more. Engineered with the finest technologies, our water purifiers are intuitive, efficient and beautiful. Whether it's top of the line, 5 star rated\* A.O. Smith ProPlanet series, Green series, the invisible under the counter models Z2+ and X5+ or the UV models Z1 and X2, find one that best suits your needs.

Ordinary RO water purifiers use four glasses of water to make just one glass of clean water. But A. O. Smith water purifiers with Advance Recovery Technology™ (ART™) save 2X more water\*. With high water recovery of 60% in ProPlanet series, you save more than 9000L of water annually\*, which is potentially enough for 2 families of 4. Unlike ordinary RO purifiers, the water doesn't bypass the RO membrane. Instead, we pass 100% of the water through it. What this means is that all the water is purified with minimal wastage.
