SUNSHINE
Expert in cooking since 1978

BUILT- IN- HOB RANGE

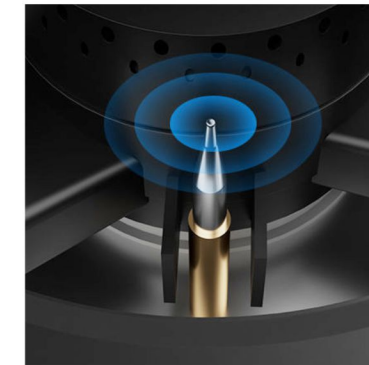

Full Brass Burners-
Ideal for Indian Cooking Conditions

ITS ALL ABOUT **SAFETY!**

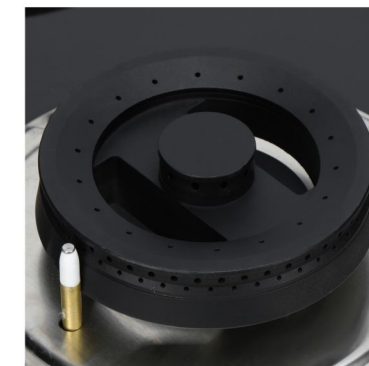

World over, a lot of importance is being given to safety. Flames are extinguished for a number of reasons. Whatever the reason may be for the flame going out, it's important that the flow of gas is stopped immediately.

FLAME FAILURE DEVICE (FFD)

The FFD is a device valve that gets activated the moment the flame accidentally goes off. It automatically cuts off the gas supply to the burners, Thus, preventing any instance of fire accidents due to gas leakage.

PREMIUM IGNITION PIN BRASS COVER

The auto electric ignition gives the customer complete freedom from lighters and other external ignition tools. The Sunshine Hob's ignition pin comes with a protective brass cover that increases the service life of the pin.

The result - your kitchen and home is safe from any kind of gas leakage accident.

FLAME FAILURE DEVICE

AURA Series

BURNERS CRAFTED FOR INDIAN COOKING

AURA SERIES

SUN- AURA HOB AI 753

- Powerful Full Brass Dual Ring Burner

PAN SUPPORT WITH HEAT PROTECTOR

Due to the high power burner the heat dissipation during long hours of cooking cause the surrounding exposed surfaces like knobs and glasses to heat up. To avoid this kind of unwanted heating of exposed surfaces around the burners.

PRECI FLAME BRASS BURNER

EASE OF CLEANING & MAINTENANCE

- Cleaning of the burners is a breeze.
- The burner is easy to assemble and clean. in case of spillage and pore blocking, you just need to soak the burner!

ERGONOMIC METAL KNOBS

Gun-Metal Finish, defined and grooved edge gives the knob a distinct signature aesthetics.

The Knobs are designed for a better grip and easy maintenance & Cleaning.
